Activity Report

Name of the Program: Blood Donation Drive

Venue: Alma Latifi Hall, M.H. Saboo Siddik College of Engineering, Byculla, Mumbai.

Date: 4th March, 2020

Organised by : IETE Student Forum of Department of Electronics & Telecommunication Engineering and SACE in association with Giants Group of Byculla & BYL Nair Hospital Blood Bank, Mumbai.

Chief Guest: Dr. Zahir Kazi, President of Anjuman-I-Islam

Coordinator : Dr. Iqbal Shaikh, SACE Coordinator &

Mr. Abdul Sayeed, HOD [Dept. of EXTTC],

Mr. Awij A. R. Shaikh [IETE Coordinator]

Need of the Program:

There is a constant need for regular blood supply because blood can be stored for only a limited time before use. Regular blood donations by a sufficient number of healthy people are needed to ensure that safe blood will be available whenever and wherever it is needed.

Details of the Program:

- The program was conducted on 4th March for a duration of eight hours from 9:00 to 5:00 p.m.
- The Drive began at 9:00 a.m. in Alma Latifi Hall with an inaugural function where in, the Hon. President of Anjuman-I-Islam, Dr.Zahir I. Kazi is felicitated by the Director of MHSSCOE, Dr.Mohiuddin Ahmed.
- Hon. President of Anjuman-I-Islam, Dr.Zahir I. Kazi, expressed his gratitude to the M.H. Saboo Siddik College of Engineering for its continuous endeavour in this regard. He also stressed on the growing need of blood in the state and commended the young volunteers for their noble act.
- The blood donors registered themselves at the registration desk. Before registration, there was a small routine check to find out the eligibility of the donor.

- The blood donors were given poha, tea, coffee and biscuits before and after donating the blood in order to reenergize themselves.
- The blood donors were felicitated with a blood donation certificate & a donor card by Nair Hospital and a gift hamper from MHSSCOE & Giants Group Byculla, as a token of appreciation and gratitude.
- The Nair Hospital team and Giants Group of Byculla team, staff and student co-ordinators were provided with lunch.
- Staffs and students from the college as well as people from outside the college also participated in the drive, receiving total **253 blood donations** for this drive.
- The drive was a huge success when donors came forward to donate blood which included teaching & non-teaching staff, students & donors from outside.

Benefits of the Program:

Blood is the most precious gift that anyone can give to another person — the gift of life. A decision to donate your blood can save a life, or even several if your blood is separated into its components — red cells, platelets and plasma — which can be used individually for patients with specific conditions.

CLEAN-UP-DRIVE

OBJECTIVE:-Cleanliness' is the priority for a healthy LIFE. Keeping this as an excellent habit to be built up in the growing graduates the clean-up drive is organized in Our college every year. This event was organized as a part of the Green Event 2009 to 2013. Clean-up Drive inoculates the sense of community based activity where technology meets the necessity of being upgraded in the curriculum.

Importance of Cleanliness:

Indians gained freedom under the leadership of Gandhiji, but his dream of a clean India is still unfulfilled. Mahatma Gandhi said "Sanitation is more important than independence". He made cleanliness and sanitation an integral part of the Gandhian way of living. His dream was total sanitation for all. Cleanliness is most important for physical well-being and a healthy environment. It has bearing on public and personal hygiene. It is essential for everyone to learn about cleanliness, hygiene, sanitation and the various diseases that are caused due to poor hygienic conditions. The habits learnt at a young age get embedded into one's personality. Even if we inculcate certain habits like washing hands before meals, regular brushing of teeth, and bathing from a young age, we are not bothered about cleanliness of public places. Mahatma Gandhi said, "I will not let anyone walk through my mind with their dirty feet."

Gandhiji dwelt on cleanliness and good habits and pointed out its close relationship to good health. No one should spit or clean his nose on the streets. In some cases the sputum is so harmful that the germs infect others. In some countries spitting on the road is a criminal offence. Those who spit after chewing betel leaves and tobacco have no consideration for the feelings of others. Spit, mucus from the nose, etc, should also be covered with earth. (*Navajivan* dated 2 November, 1919).

In emphasizing an ongoing procedure or set of habits for the purpose of maintenance and prevention, the concept of cleanliness differs from purity, which is a physical, moral, or ritual state of freedom from pollutants. Whereas purity is usually a quality of an individual or substance, cleanliness has a social dimension, or implies a system of interactions. "Cleanliness," is indispensable to our modern nation of social perfection." A household or workplace may be said to exhibit cleanliness, but not ordinarily purity; cleanliness also would be a characteristic of the people who maintain cleanness or prevent dirtying.

CONCLUSION:-The CLEAN-UP-DRIVE is organized at GIRGAON CHOWPATTY on the 11th day i.e., post Ganesha Visergen (next day of Anata Chaturdashi). The certificates are issued to all the participants to encourage the awareness about Hygienic Public Places. Through this event the Organizing team (Civil Engineering Society) as a representative of the entire college (MHSSCOE) is ensuring at least one event on Environment and Sustainability which is a Community Based Service.

Activity Report

Name of the Program: Blood Donation Drive

Venue: Alma Latifi Hall, M.H. Saboo Siddik College of Engineering, Byculla, Mumbai.

Date: 4th March, 2020

Organised by : IETE Student Forum of Department of Electronics & Telecommunication Engineering and SACE in association with Giants Group of Byculla & BYL Nair Hospital Blood Bank, Mumbai.

Chief Guest: Dr. Zahir Kazi, President of Anjuman-I-Islam

Coordinator : Dr. Iqbal Shaikh, SACE Coordinator

Mr. Abdul Sayeed, HOD [Dept. of EXTC]

Mr. Awij A. R. Shaikh [IETE Coordinator]

Need of the Program:

There is a constant need for regular blood supply because blood can be stored for only a limited time before use. Regular blood donations by a sufficient number of healthy people are needed to ensure that safe blood will be available whenever and wherever it is needed.

Details of the Program:

- The program was conducted on 4th March for a duration of eight hours from 9:00 to 5:00 p.m.
- The Drive began at 9:00 a.m. in Alma Latifi Hall with an inaugural function where in, the Hon. President of Anjuman-I-Islam, Dr.Zahir I. Kazi is felicitated by the Director of MHSSCOE, Dr.Mohiuddin Ahmed.
- Hon. President of Anjuman-I-Islam, Dr.Zahir I. Kazi, expressed his gratitude to the M.H. Saboo Siddik College of Engineering for its continuous endeavour in this regard. He also stressed on the growing need of blood in the state and commended the young volunteers for their noble act.
- The blood donors registered themselves at the registration desk. Before registration, there was a small routine check to find out the eligibility of the donor.

- The blood donors were given poha, tea, coffee and biscuits before and after donating the blood in order to reenergize themselves.
- The blood donors were felicitated with a blood donation certificate & a donor card by Nair Hospital and a gift hamper from MHSSCOE & Giants Group Byculla, as a token of appreciation and gratitude.
- The Nair Hospital team and Giants Group of Byculla team, staff and student co-ordinators were provided with lunch.
- Staffs and students from the college as well as people from outside the college also participated in the drive, receiving total **253 blood donations** for this drive.
- The drive was a huge success when donors came forward to donate blood which included teaching & non-teaching staff, students & donors from outside.

Benefits of the Program:

Blood is the most precious gift that anyone can give to another person — the gift of life. A decision to donate your blood can save a life, or even several if your blood is separated into its components — red cells, platelets and plasma — which can be used individually for patients with specific conditions.

CLEAN-UP-DRIVE

OBJECTIVE:-Cleanliness' is the priority for a healthy LIFE. Keeping this as an excellent habit to be built up in the growing graduates the clean-up drive is organized in Our college every year. This event was organized as a part of the Green Event 2009 to 2013. Clean-up Drive inoculates the sense of community based activity where technology meets the necessity of being upgraded in the curriculum.

Importance of Cleanliness:

Indians gained freedom under the leadership of Gandhiji, but his dream of a clean India is still unfulfilled. Mahatma Gandhi said "Sanitation is more important than independence". He made cleanliness and sanitation an integral part of the Gandhian way of living. His dream was total sanitation for all. Cleanliness is most important for physical well-being and a healthy environment. It has bearing on public and personal hygiene. It is essential for everyone to learn about cleanliness, hygiene, sanitation and the various diseases that are caused due to poor hygienic conditions. The habits learnt at a young age get embedded into one's personality. Even if we inculcate certain habits like washing hands before meals, regular brushing of teeth, and bathing from a young age, we are not bothered about cleanliness of public places. Mahatma Gandhi said, "I will not let anyone walk through my mind with their dirty feet."

Gandhiji dwelt on cleanliness and good habits and pointed out its close relationship to good health. No one should spit or clean his nose on the streets. In some cases the sputum is so harmful that the germs infect others. In some countries spitting on the road is a criminal offence. Those who spit after chewing betel leaves and tobacco have no consideration for the feelings of others. Spittle, mucus from the nose, etc, should also be covered with earth. (*Navajivan* dated 2 November, 1919).

In emphasizing an ongoing procedure or set of habits for the purpose of maintenance and prevention, the concept of cleanliness differs from purity, which is a physical, moral, or ritual state of freedom from pollutants. Whereas purity is usually a quality of an individual or substance, cleanliness has a social dimension, or implies a system of interactions. "Cleanliness," is indispensable to our modern nation of social perfection." A household or workplace may be said to exhibit cleanliness, but not ordinarily purity; cleanliness also would be a characteristic of the people who maintain cleanness or prevent dirtying.

CONCLUSION:-The CLEAN-UP-DRIVE is organized at GIRGAON CHOWPATTY on the 11th day i.e., post Ganesha Visergen (next day of Anata Chaturdashi). The certificates are issued to all the participants to encourage the awareness about Hygienic Public Places. Through this event the Organizing team (Civil Engineering Society) as a representative of the entire college (MHSSCOE) is ensuring at least one event on Environment and Sustainability which is a Community Based Service.

CLEAN-UP-DRIVE

OBJECTIVE:-Cleanliness' is the priority for a healthy LIFE. Keeping this as an excellent habit to be built up in the growing graduates the clean-up drive is organized in Our college every year. This event was organized as a part of the Green Event 2009 to 2013. Clean-up Drive inoculates the sense of community based activity where technology meets the necessity of being upgraded in the curriculum.

Importance of Cleanliness:

Indians gained freedom under the leadership of Gandhiji, but his dream of a clean India is still unfulfilled. Mahatma Gandhi said "Sanitation is more important than independence". He made cleanliness and sanitation an integral part of the Gandhian way of living. His dream was total sanitation for all. Cleanliness is most important for physical well-being and a healthy environment. It has bearing on public and personal hygiene. It is essential for everyone to learn about cleanliness, hygiene, sanitation and the various diseases that are caused due to poor hygienic conditions. The habits learnt at a young age get embedded into one's personality. Even if we inculcate certain habits like washing hands before meals, regular brushing of teeth, and bathing from a young age, we are not bothered about cleanliness of public places. Mahatma Gandhi said, "I will not let anyone walk through my mind with their dirty feet."

Gandhiji dwelt on cleanliness and good habits and pointed out its close relationship to good health. No one should spit or clean his nose on the streets. In some cases the sputum is so harmful that the germs infect others. In some countries spitting on the road is a criminal offence. Those who spit after chewing betel leaves and tobacco have no consideration for the feelings of others. Spit, mucus from the nose, etc, should also be covered with earth. (*Navajivan* dated 2 November, 1919).

In emphasizing an ongoing procedure or set of habits for the purpose of maintenance and prevention, the concept of cleanliness differs from purity, which is a physical, moral, or ritual state of freedom from pollutants. Whereas purity is usually a quality of an individual or substance, cleanliness has a social dimension, or implies a system of interactions. "Cleanliness," is indispensable to our modern nation of social perfection." A household or workplace may be said to exhibit cleanliness, but not ordinarily purity; cleanliness also would be a characteristic of the people who maintain cleanness or prevent dirtying.

CONCLUSION:-The CLEAN-UP-DRIVE is organized at GIRGAON CHOWPATTY on the 11th day i.e., post Ganesha Visergen (next day of Anata Chaturdashi). The certificates are issued to all the participants to encourage the awareness about Hygienic Public Places. Through this event the Organizing team (Civil Engineering Society) as a representative of the entire college (MHSSCOE) is ensuring at least one event on Environment and Sustainability which is a Community Based Service.
